I, Donald Savage, am the sole member/manager of NEGVS, LLC (Northeast Georgia Veterinary Services) certify as an accredited veterinarian that Prince has been inspected by me and that he is not showing any signs of infectious, contagious, and/or communicable diseases. He is gentle, allowed me to pick up all her four hooves and he trotted without any lameness, his eyes, ears, nose, throat, lungs and gut sounds all presented and normal. Prince have an old scar located on his back right cannon bone area, does not appear to bother him. To the best of my knowledge, the animal listed above meet the state of destination and Federal interstate requirements. No further warranty is made or implied.

Sincerely,

Donald Savage, DVM
