

# PREPURCHASE EXAMINATION RECORD

N/E = Not Examined

N/A = Not Applicable

n = Normal

WNL = Within Normal Limits

Patient Name: Perfections Hollywood Nights V    Seller Name: 4PS Horses    Date: 02/28/2022

## GENERAL:

→ Age: 7 Yrs. 2 Mos. → Breed: Fox Trotter, Missouri → Sex: Gelding → Color: Sorrel

## Symmetry:

→ Head: n → Neck: n → Body: n → Legs: n → Hooves: n

## Eyes:

→ Reflexes (palpebral/PLR): normal direct and indirect PLR's bilaterally

→ Eyelids: normal appearance; no lesions or defects

→ Conjunctiva: normal appearance; no lesions or defects

→ Cornea: normal appearance; no lesions or defects

## Ears:

→ Shape: acceptable

→ Sensation to Touch: normal

## Mouth:

→ Lips: no abnormalities noted

→ Tongue: no abnormalities noted

→ Gingiva: no abnormalities noted

→ Odor: none

→ CRT: <2s - normal → Mucous Membranes: pink/moist

→ Bite: normal; no over/under bite

→ Teeth: normal at this time; recommend routine annual dental float

## Nasal:

→ Airflow: adequate/symmetrical

→ Mucus Membranes: pink/moist CRT <2

→ Odor: none → Noise: none → Discharge: none

→ Sinus Percussion: WNL

→ Sensation to Touch: normal response

## Pharynx/Larynx/Trachea:

→ Palpation: unremarkable → Cough Induction?: no → Noise: none

## Pulmonary/Trachea:

→ Respiration Rate: 12bpm; WNL → Quality: adequate

→ Auscultation at Rest: no crackles/wheezes/tracheal rattle

## Cardiovascular:

→ Pulse Rate: 36bpm; WNL → Pulse Quality: strong/WNL → Jugular Vein: patent bilaterally

→ Auscultation at Rest: no murmurs or arrhythmias ausculted

→ Auscultation at After Exercise: no murmurs or arrhythmias ausculted

## Integument:

→ Surgical Scars: Colic: no Throat: no Neurectomy: no

Other Surgical Scars: none grossly visible or palpable Tail Tone: adequate

→ Other Scars: none → Masses: none

→ Wounds: no apparent, obvious, or palpable external wounds noted

**Digestive:**

- Auscultation: \_normal borborygmi in all quadrants\_
- Rectal: \_no rectal exam necessary or performed during exam today\_
- Feces: \_grossly normal appearance today

**Urogenital:**

- External Inspection: \_no abnormalities noted on basic exam\_ → Urination Observed?: \_no\_\_
- Rectal: \_rectal palpation exam not performed or indicated today\_

**Other:**

- Body Condition: \_acceptable; 4/9\_ → Temperature: \_100.1°F; WNL\_
- Coggins Testing: \_performed by seller today\_

**NEUROLOGICAL EXAMINATION:**

- \* Mentation: Bright, alert, and responsive.
- \* Cranial Nerves: no cranial nerve deficits; all intact and appropriate reflexes
- Segmental Reflexes:
  - \* Cervicofacial reflex: Intact and appropriate to bilaterally.
  - \* Panniculus reflex: Intact and appropriate bilaterally.
  - \* Perineal reflex: Intact and appropriate.
- Neck Flexions and Palpations:
  - \* Adequate range of motion laterally, dorsally, and ventrally. No sensitivity to neck or hind end palpations.
- There is moderate sensitivity to lumbar back palpation bilaterally.
- \* Stance Evaluation: No overt neurological or conscious proprioceptive deficits.
- Gait Evaluation:
  - \* Walk in Straight Line: No overt neurological deficits.
  - \* Tight Circle Left: No overt neurological deficits.
  - \* Tight Circle Right: No overt neurological deficits.
  - \* Walking with Head Up: No overt neurological deficits.
  - \* Tail Pull: No overt neurological deficits.
  - \* Walking Backwards: No overt neurological deficits.
  - \* Evaluation at the Trot: See lameness examination.
- → NEUROANATOMICAL LOCALIZATION: n/a
- → ASSESSMENT: normal neurologic condition

**MUSCULOSKELETAL EXAMINATION & PALPATION:**

Neck → left: *\_no pain to palpation; acceptable ROM\_*  
right: *\_no pain to palpation; acceptable ROM\_*  
Back → left: *\_no pain to palpation; acceptable ROM\_*  
right: *\_no pain to palpation; acceptable ROM\_*  
SI → left: *\_no pain to palpation; acceptable ROM\_*  
right: *\_no pain to palpation; acceptable ROM\_*  
LS → *no pain to palpation; acceptable ROM*  
Sacrum → *no pain to palpation; acceptable ROM*

Left Forelimb: *\_no pain to palpation, swellings, joint effusions or other abnormalities\_*  
Right Forelimb: *\_no pain to palpation, swellings, joint effusions or other abnormalities\_*  
Left hindlimb: *\_no pain to palpation, swellings, joint effusions or other abnormalities\_*  
Right hindlimb: *\_no pain to palpation, swellings, joint effusions or other abnormalities\_*  
Shoeing: *\_acceptable\_*  
Other: *\_n/a\_*

**LAMENESS EXAM:**

Left Forelimb → Grade: *\_0/5\_* Comments: *\_no baseline lameness or response to flexions exhibited today\_*  
Right Forelimb → Grade: *\_0/5\_* Comments: *\_no baseline lameness or response to flexions exhibited today\_*  
Left Hindlimb → Grade: *\_0/5\_* Comments: *\_no baseline lameness or response to flexions exhibited today\_*  
Right Hindlimb → Grade: *\_0/5\_* Comments: *\_no baseline lameness or response to flexions exhibited today\_*

**FLEXION TEST RESPONSE:**

<u>Left forelimb</u>	<u>Right forelimb</u>	<u>Left hindlimb</u>	<u>Right hindlimb</u>
→ Digit: <i>_negative</i>	→ Digit: <i>_negative</i>	→ Digit: <i>_negative</i>	→ Digit: <i>_negative</i>
→ Carpus: <i>_negative</i>	→ Carpus: <i>_negative</i>	→ Upper limb: <i>_negative_</i>	→ Upper limb: <i>_negative_</i>
		→ Full limb: <i>_negative_</i>	→ Full limb: <i>_negative_</i>

**HOOF TESTER RESPONSE:**

Left Forelimb: *\_no response\_*  
Right Forelimb: *\_no response\_*

**IMAGING PERFORMED:** No diagnostic imaging requested or performed today.

**ADDITIONAL COMMENTS & DISCUSSION:** Thank you for allowing us to evaluate your pre-purchase candidate today. Please do not hesitate to contact us with questions or concerns.
