**HORSE : HANK**

08/17/22 – A physical exam was performed on an approximate 13year old Draft Mule. He is a Red Roan Gelding. He was found to be in overall good health. His body condition was good. He was found to have normal heart and lung sounds. He had a resting heart rate of 34 BPM and a respiratory rate of 24. All lung fields were found to be normal with good air movement on both sides. Intestinal sounds were present on both sides and were found to be normal. Eyes were normal on gross examination. Temperature was 100.5 F. His gums were pink with a normal refill time of less than 2 seconds. He had a normal hair coat. He appeared to be neurologically normal. He moved sound at the trot.

A handwritten signature in black ink, appearing to read "Donald Yorlets". The signature is written in a cursive, flowing style with a large, prominent 'D' at the beginning.
